EDUCATION

NUS BUSINESS SCHOOL, NATIONAL UNIVERSITY OF SINGAPORE — Singapore, SG
Master of Science in Finance – GPA 4.14/5 (Semester 1) — Aug 2025 – Jan 2027

- Relevant coursework: Applied Corporate Finance, Financial Modelling, Applied Financial Risk Management, Fund Management.

CFA INSTITUTE — USA
Chartered Financial Analyst (CFA) Level III Candidate (Portfolio Management Pathway) — August 2026

- Specialisation: Fixed Income, Corporate Finance, Financial Statement Analysis, Quantitative Methods, Ethics and Professional Standards.

ST. XAVIER'S COLLEGE — Kolkata, India
Bachelor of Commerce – First-Class Honours, CGPA 7.85/10 — Jul 2020 – Jun 2023

WORK EXPERIENCE

JENFI PTE. LTD. (FINTECH REVENUE-BASED-FINANCING LENDER) — Singapore, SG
Credit Risk Analytics intern — May 2026 – Aug 2026

- Developed a Python analytics pipeline automating SME bank transaction classification for credit underwriting at a MAS-regulated fintech lender – benchmarked against 6,500+ loan book across 5+ industry verticals with ~98% adjusted accuracy; delivered for live credit analysis.
- Eliminated ~95% of manual review time per 100-company batch through a 20-level rule chain and 160+ entity lender database independently compiled from primary research enabling analysts to focus on financial due diligence and risk assessment.
- Independently scaled transaction classification coverage from ~40% to 100% of system categories – conceived the full architecture, validated against full historical loan book and delivered production-quality handover documentation.

KEJRIWAL & CO. (FINANCIAL ADVISORY & STRATEGY BOUTIQUE) — Kolkata, India
Financial Reporting Consultant — Apr 2023 – Jun 2025

- Delivered ~USD 350K in aggregate tax savings (reduced client tax burden 5%-10%) across 10+ corporate clients (revenue USD 2.4M–6M) through capital structure analysis and tax-efficient transaction structuring – advising on leverage optimisation, asset disposal strategy, and post-tax return implications.
- Advised 10+ SME clients on loan feasibility – modelled borrowing capacity, interest tax shield, and balance sheet impact; prepared financial statements supporting bank credit assessments and optimised financing terms.
- Designed an excel compliance tracking framework to reduce audit readiness time by ~20% across 10+ engagements.

EMAMI LIMITED (NSE–LISTED FMCG COMPANY) — Kolkata, India
Finance Intern — Oct 2021 – Apr 2022

- Conducted internal audit procedures and prevented material misstatement in tax audit submission by flagging a USD ~107K depreciation understatement pre-filing. Co-ordinated with legal and operations department throughout.
- Prepared monthly MIS reports and compiled financial and operational data – extracted and analysed 3-year CSR expenditure trends from SAP, identifying 16.3% YoY growth and directly informing a USD 1.2M budget allocation incorporated into Emami's FY2022 Annual report.
- Marked-to-market a USD 14M multi-asset portfolio (24 holding) – designed the excel valuation and return attribution model from scratch; output incorporated into Emami's FY2022 annual report for stakeholder communication.

PROJECTS

- **LBO Returns Analyser (2026) –** Designed and deployed an interactive LBO model computing sponsor IRR/MOIC with sensitivity analysis, deb schedules, sources and uses, and value-creation bridge across scenarios – deployed live at https://riddhi-lbo-analyser.netlify.app/
- **Buy-Side Equity Valuation (Sheng Siong Group, 2025) –** Issued a contrarian AVOID recommendation on an SGX-listed supermarket chain (SGD 1.4B revenue) based on blended DCF/ P/E valuation (WACC: 6.19%) and a 7-peer comparable set citing a ~20% premium to intrinsic value.
- **Bharti Airtel DCF & Capital Structure Analysis (2025) –** Valued the USD 6.5B revenue telecommunications operator using DCF (WACC ~12%); analysed debt heavy capital structure implications and issued a SELL on standalone valuation vs BUY on a blended basis.

CERTIFICATIONS

- **CFA Level II (May 2024) –** Scored above 90th percentile in Portfolio Management and Quantitative Methods.

SKILLS

- **Finance & Analysis –** DCF, LBO modelling, comparable company analysis, 3-statement modelling, capital structure analysis, financial statement analysis, internal audit, asset allocation, sensitivity/scenario analysis, return attribution, asset valuation,
- **Technical –** Excel (Pivot Table, VLOOKUP/HLOOKUP), Python (Pandas/Statsmodels/Matplotlib), Bloomberg Terminal, Refinitiv Eikon (Workspace), SAP, PowerPoint, Word.
